

I enjoy the  
nature of  
this work.

This is how  
business is  
done.

Accountants  
are every-  
where in the  
company.

## ACCOUNTING

Looking across Devon today, you would be greatly surprised with the number of accounting degrees located in other business functions performing non-accounting type work. You will find a person with an accounting degree in some of the following areas or positions:

- > Regulatory Affairs
- > Investor Relations
- > Engineering and land technicians
- > Division Order analysts
- > Marketing analysts
- > Tax

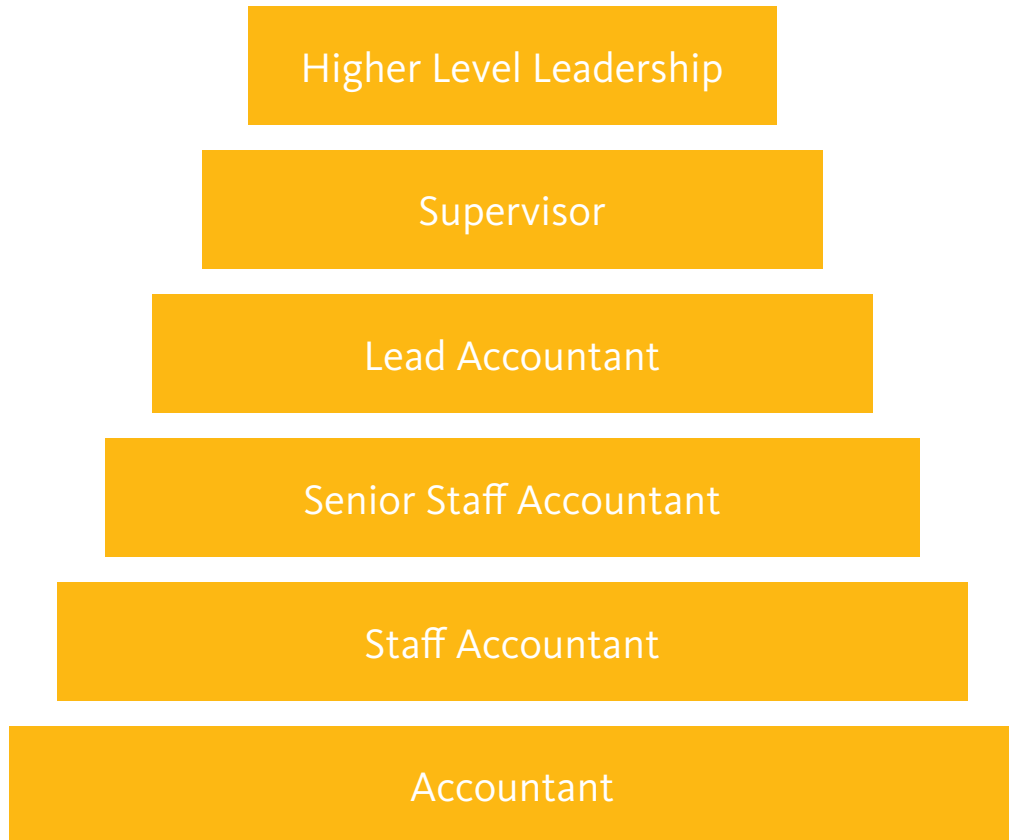

Devon offers both year-round and summer-only internships. We require a minimum 3.0 GPA and the ability to work a minimum of 20 hours per week. Interns perform tasks similar to an entry-level accountant and rotate departments periodically to enhance their exposure to the industry.

Devon also offers a number of resources to assist with one's career development in Accounting, including college tuition reimbursement, CPA exam and review course reimbursement, onsite training classes and an employee rotation program.

We pride ourselves on balancing work and our personal lives and offer employees flex time and an optional alternate work schedule where employees can take every other Friday off by working an additional hour on eight out of nine workdays.
