

I get to
do some
pretty cool
stuff.

GEOSCIENCES

Devon offers a comprehensive three-year training program that consists of both on-the-job and classroom training. Devon offers mentored work assignments and training courses concentrated to build upon what you have already learned in school. Our training program is developed to extend your subject matter expertise in a number of industry-related areas.

**TRAINING SEQUENCE:
YEAR ONE – FOUNDATION**

The Geosciences Training Program will provide mentored work assignments and training courses concentrated on building your basic knowledge, skills and technical tool set.

You will:

- > Receive an orientation to Devon
- > Be assigned to active projects for on-the-job training
- > Receive training on exploration fundamentals
- > Use cutting-edge tools and technologies
- > Gain operational experience

YEAR TWO – APPLICATION

The program will help you hone your ability to form integrated interpretations using a variety of data and technologies as a contributing team member:

- > Be assigned to exploration or exploitation teams
- > Develop integrated interpretations to generate prospects and analyze risks through basin evaluations incorporating well data, seismic interpretation and 3-D visualization

YEAR THREE – SPECIAL SKILLS

Devon's training will also help you develop a higher level of expertise in areas of your particular technical interest.

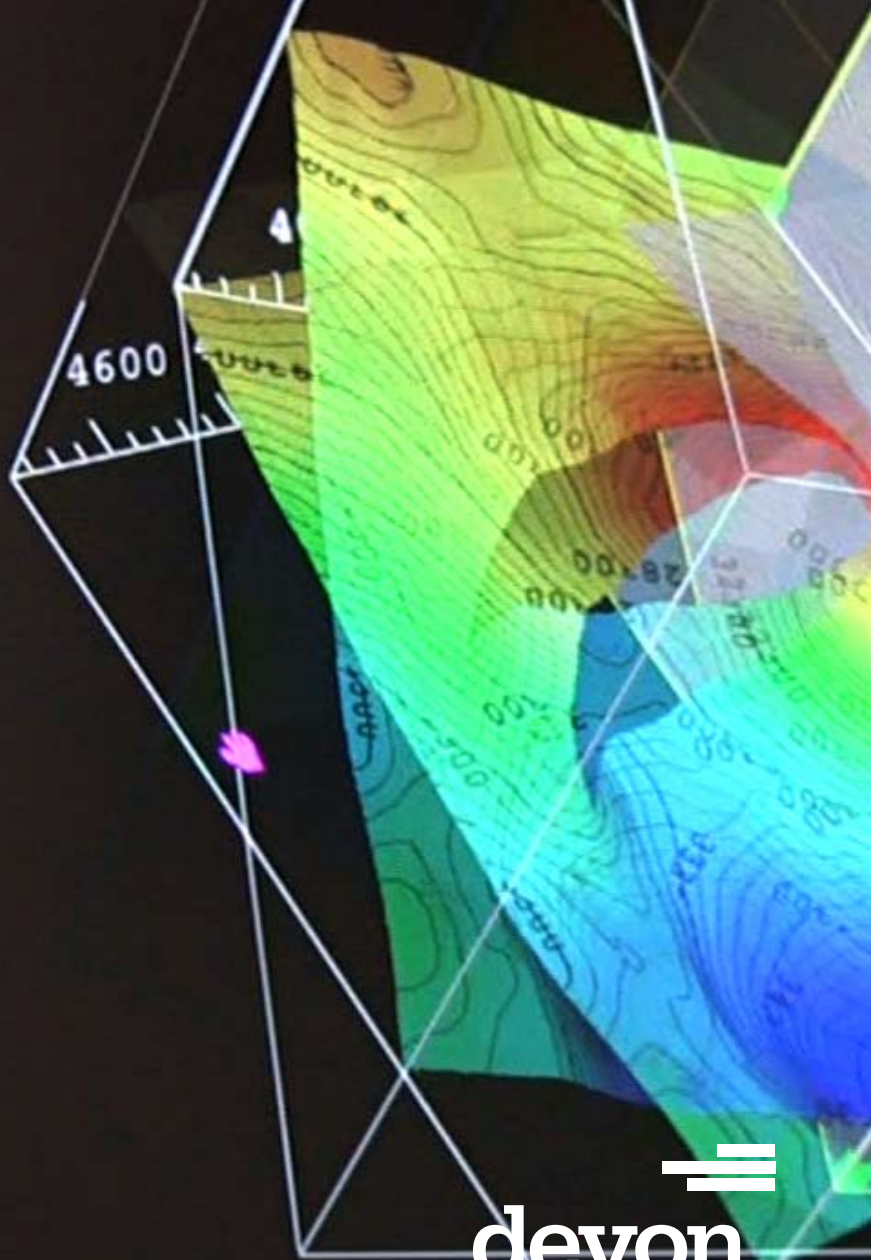

These areas include:

- > Basin expertise
- > Reservoir characterization
- > Structural geology
- > Basin modeling
- > Seismic attributes
- > Seismic inversion
- > Petrophysics

OTHER TRAINING OPPORTUNITIES INCLUDE:

- > AAPG/SEG: Conventions, workshops and courses in geology and geophysics
- > Nautilus: Industry leading world-class program, offering field and classroom courses in the geosciences
- > Geosciences, petrophysical and engineering and data management software
- > Devon's annual geoscience technical conference

All imagery was captured by Devon interns, new hires and experienced employees using an HD video camera for the purpose of giving the viewer a first-hand depiction of our company.
